TATSUNO

PROWALCO ICON FUEL DISPENSER.

VERSION 1.0

DESIGN: ROBUST & DURABLE

The Prowalco Tatsuno ICON Fuel Dispenser is engineered for reliability and longevity, incorporating a robust design with premium materials to meet the demanding needs of modern forecourts. Built from 3CR12 stainless steel or brushed stainless steel, it offers unmatched durability and rust resistance, ensuring long-term performance in various environmental conditions. Achieve precise inventory management and comprehensive containment monitoring with the EVO™ fuel systems.

Equipped with pre-configured hardware and customisable software, these systems ensure reliable tank-level monitoring and adherence to regulatory standards.

KEY FEATURES:

- **Materials:** Choose between 3CR12 stainless steel or a sleek brushed stainless steel finish for an elegant look.
- **Weather Resistance:** Designed to withstand extreme conditions such as intense sunlight and heavy rain, making it ideal for high-traffic and remote locations.
- **Aesthetic Appeal:** The modern design and finish not only protect against scratches and tarnishing but also enhance the overall appearance of your forecourt.

TECHNOLOGY: ADVANCED & INNOVATIVE.

The ICON Fuel Dispenser incorporates cutting-edge technology to optimise performance, streamline operations, and ensure continuous reliability.

- **Cloud-Based Maintenance:** Enables remote diagnostics and problem resolution to minimise downtime and improve operational continuity.
- **ICON View Software:** Provides real-time monitoring, historical transaction retrieval, and remote operational adjustments. It's compatible with MS Windows and ideal for sites with GSM coverage.
- **ICON Gateway Unit:** Facilitates secure remote connectivity and data uploads to the Prowalco Cloud Server, enhancing data management and remote access.
- **Unique Tagging System:** Uses Dallas (iButton) technology to uniquely identify authorised transactions, enhancing security and reducing fraud.

KEY FEATURES:

- **Remote Support:** Access refuel transactions and real-time operational status.
- **Efficient Communication:** Supports various communication methods, including IP addressable and encrypted wireless Wi-Fi.

DISPLAY: INTUITIVE & INFORMATIVE

Our dispenser features an advanced, intuitive display system with ICONS that provide comprehensive, real-time information.

KEY FEATURES:

- **POS Communication ICON:** Shows connection status with the Point of Sale system.
- **Nozzle Boot Status ICON:** Indicates whether the nozzle is lifted out of its boot.
- **Refueling Status ICON:** Displays when refueling is actively occurring.
- **Maintenance Alerts ICON:** Alerts users to potential maintenance issues.
- **Battery Mode Indicator ICON:** Shows when the dispenser is operating on battery power.

DISPLAY FEATURES:

- **Real-Time Feedback:** Provides clear visual indicators for various operational states.
- **User-Friendly Interface:** Enhances operational clarity and assists service technicians in troubleshooting remotely.

RELIABLE TATSUNO HYDRAULICS

At the heart of the ICON Fuel Dispenser is the integration of Tatsuno hydraulics, known for their precision and reliability.

- **Proven Reliability:** Ensures consistent performance and minimises mechanical failures.
- **Precision Engineering:** Delivers accurate fuel dispensing, fostering trust and transparency.
- **Durability:** Performs reliably in extreme temperatures and challenging conditions.
- **Low Maintenance:** Designed for minimal upkeep and reduced maintenance costs.
- **Efficient Flow Control:** Manages fuel flow smoothly and effectively.

KEY BENEFITS:

- **Robust Performance:** Reliable in various environments and conditions.
- **Accuracy:** Precise fuel dispensing reduces recalibration needs.
- **Cost-Effective:** Low maintenance and efficient operation contribute to overall savings.

VERSATILE DESIGN OPTIONS.

The ICON Fuel Dispenser range includes multiple designs to fit different forecourt needs, including:

KEY FEATURES:

- **IC6000 C-Shape:** Modern and functional.
- **IC1000 and IC4000 Vertical Shape:** Traditional design.
- **IC5000 Industrial Design:** Robust and suited for commercial forecourts.

Available in modular sizes from one to ten hoses, with flow rates from 40 to 120 litres per minute, the ICON dispenser provides flexibility and efficiency for a variety of fueling operations.

Prowalco Tatsuno ICON Fuel Dispenser offers sleek style, superior performance, and reliability, ensuring that your forecourt remains attractive, functional, and efficient.

UNIFORM TECHNOLOGY WITH TAILORED DESIGNS FOR EVERY NEED.

At our Prowalco Tatsuno, we pride ourselves on offering a consistent, high-quality technological foundation across our entire ICON range of fuel dispenses. Regardless of the model you choose, you can count on the same advanced technology driving performance, reliability, and efficiency.

However, we understand that different settings require different solutions. That's why our range includes various external designs to cater to your specific needs. Whether you're managing a smaller commercial site or a larger, busier forecourt, our designs offer flexibility and functionality.

For smaller commercial sites, our compact ICON 5000 are perfect for optimising space while maintaining high performance. On the other hand, larger sites with higher traffic can benefit from our ICON 1000, ICON 4000 and ICON 6000 designs that support multiple nozzles and accommodate a greater footprint.

These models not only handle increased demand but also enhance your forecourt's overall image with their robust and sophisticated design.

ICON 5000 SERIES – COMMERCIAL RANGE

RETAIL RANGE – ICON 1000, ICON 4000 & ICON 6000

Partner with Prowalco Tatsuno for reliable distribution services and cutting-edge solutions in the fuel and retail sectors.
